INDEPENDENT AUDITORS' REPORT

To the Shareholders of
Feldman, Ingardona & Co.

We have audited the accompanying statement of financial condition of Feldman, Ingardona & Co. as of June 30, 2009, and the related statements of operations, changes in shareholders' equity, changes in liabilities subordinated to claims of general creditors and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements as well as assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Feldman, Ingardona & Co. as of June 30, 2009, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the supplementary schedules is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 under the Securities and Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statements taken as a whole.

A handwritten signature in cursive script that reads 'Ryan & Juraska'.

NOTES TO FINANCIAL STATEMENTS

June 30, 2009

1. Organization and Business

Feldman, Ingardona & Co. (the "Company"), an Illinois corporation, is a broker-dealer and an investment advisor registered with the Securities and Exchange Commission, and is a member of the Financial Industry Regulatory Authority. The Company conducts business primarily with retail customers that are located throughout the United States, and introduces that business on a fully-disclosed basis to a clearing broker.

2. Summary of Significant Accounting Policies

Revenue Recognition

Transactions in securities are recorded on trade date.

Income Taxes

The Company has elected to be an "S corporation" under provisions of the Internal Revenue Code. Under those provisions, the Company does not pay federal corporate income taxes on its taxable income. The stockholders are liable for individual income taxes on the Company's taxable income.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

3. Off-Balance Sheet Credit and Market Risk

Securities transactions of customers are introduced to and cleared through a clearing broker. Under the terms of its clearing agreement, the Company is required to guarantee the performance of its customers in meeting contracted obligations. In conjunction with the clearing broker, the Company seeks to control the risks associated with its customer activities by requiring customers to maintain collateral in compliance with various regulatory and internal guidelines. Compliance with the various guidelines is monitored daily and, pursuant to such guidelines, the customers may be required to deposit additional collateral, or reduce positions where necessary.

Amounts due from the clearing broker represent a concentration of credit risk and primarily relate to commissions received on securities transactions. The Company does not anticipate nonperformance by customers or its clearing broker. In addition, the Company has a policy of reviewing, as considered necessary, the clearing broker with which it conducts business.

NOTES TO FINANCIAL STATEMENTS

June 30, 2009

4. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1) and has elected the "alternative method." Under this rule and method, the Company is required to maintain "net capital" equivalent to the greater of \$250,000 or 2 percent of "aggregate debit items," whichever is greater, as these terms are defined.

At June 30, 2009, the Company had net capital and net capital requirements of \$485,095 and \$250,000, respectively.

5. Fair Value Disclosure

The Company adopted Statement of Financial Accounting Standards No. 157 ("SFAS No. 157"), which requires, among other things, enhanced disclosures about investments that are measured and reported at fair value. SFAS No. 157 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's assumptions about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 Inputs - Quoted prices in active markets for identical assets or liabilities at the reporting date.

Level 2 Inputs - Other than quoted prices included with Level 1 that are observable for substantially the full term of the asset or liability, either directly or indirectly. Level 2 assets include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities that are not active; and inputs other than quoted prices that are observable, such as models or other valuation methodologies.

Level 3 Inputs - Unobservable inputs for the valuation of the asset or liability. Level 3 assets include investments for which there is little, if any, market activity. These inputs require significant management judgment or estimation.

At June 30 2009, the Company did not have any level 1, level 2 or level 3 investments.

SUPPLEMENTAL SCHEDULES

FELDMAN, INGARDONA & CO.**Computation of Net Capital for Broker and Dealers pursuant to Rule 15c3-1****Year Ended June 30, 2009**

Computation of net capital

Total shareholders' equity		\$	507,445
Deductions and/or charges:			
Non-allowable assets:			
Other assets	\$	<u>15,742</u>	<u>(15,742)</u>
Net capital before haircuts on securities positions			491,703
Haircuts on securities:			
Trading and investment securities:			
Other securities	\$	<u>6,608</u>	<u>(6,608)</u>
Net capital		\$	<u><u>485,095</u></u>

Computation of basic capital requirement

Minimum net capital required (greater of \$100,000 or 6 ⅔% of aggregate indebtedness)		<u>250,000</u>
Net capital in excess of net capital requirement	\$	<u><u>235,095</u></u>

Computation of aggregate indebtedness

Aggregate indebtedness	\$	<u><u>-</u></u>
Ratio of aggregate indebtedness to net capital	%	<u><u>0.00</u></u>

There are no material differences between the above computation and the Company's corresponding unaudited Form FOCUS Part II filing as of June 30, 2009.

FELDMAN, INGARDONA & CO.

Computation for Determination of Reserve Requirements Pursuant to Rule 15c3-3

Year Ended June 30, 2009

The Company did not handle any customer cash or securities during the year ended June 30, 2009 and does not carry any securities accounts for customers or perform custodial functions relating to customer securities.

FELDMAN, INGARDONA & CO.

Information Relating to Possession or Control Requirements pursuant to Rule 15c3-3

Year Ended June 30, 2009

The Company did not handle any customer cash or securities during the year ended June 30, 2009 and does not carry any securities accounts for customers or perform custodial functions relating to customer securities.

**INDEPENDENT AUDITORS' REPORT
ON INTERNAL CONTROL**

To the Shareholders of
Feldman, Ingardona & Co.

In planning and performing our audit of the financial statements of Feldman, Ingardona & Co. (the "Company") for the year ended June 30, 2009, we considered its internal control structure, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company, including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- (1) Making quarterly securities examinations, counts, verifications, and comparisons
- (2) Recordation of differences required by Rule 17a-13
- (3) Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System
- (4) Obtaining and maintaining physical possession or control of a fully paid and excess margin securities of customers as required by rule 15c3-3

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at June 30, 2009 to meet the SEC's objectives.

This report is intended solely for the information and use of management, the SEC, the Financial Industry Regulatory Authority and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

A handwritten signature in cursive script, reading 'Ryan & Juraska'. The ink is dark and the signature is fluid and legible.
